PEARY SUBMITS HIS PROOF IN CONTROVERSY WITH COOK

Story of Two Eskimo Boys Who Accompanied Dr. Cook as Told by Peary—Claims Brooklyn Explorer Only Traveled in a Circle and Never Went Farther Than 82 Degrees
---Gives Questions and Answers of the Eskimo Boys.

New York, Oct. 12.—The following statement of Commander Robert E. Peary, which he submitted, together with an accompanying map, to the Peary Arctic Club in support of his contention that Dr. Cook did not reach the North Pole, is now made public for the first time. The statement and map have been copyrighted by the Peary Arctic Club.
(Entered according to Act of Congress, in the year 1909, by the Peary Arctic Club, in the office of the Librarian of Congress, at Washington, D. C.)
INTRODUCTION BY PEARY.
Some of my reasons for saying that Dr. Cook did not go to the North Pole will be understood by those who read the following statements of the two Eskimo boys who went with him, and who told me of my party where he did go. Several Eskimos who started with Dr. Cook from Anoratok in February, 1908, were at Etah when I arrived there in August, 1908. They told me that Dr. Cook had with him, after they left, two Eskimo boys or young men, two sledges and some twenty dogs. The boys were I-took-a-shoo and Ah-pe-lah. I had known them from their childhood. One was about eighteen and the other about nineteen years of age.
On my return from Cape Sheridan and at the very first settlement I touched (Nerke, near Cape Chalon) in August, 1909, and nine days before reaching Etah, the Eskimos told me, in a general way, where Dr. Cook had been; that he had wintered in Jones Sound and that he had told the white men at Etah that he had been a long way north, but that the boys who were with him, I-took-a-shoo and Ah-pe-lah, said that this was not so. The Eskimos laughed at Dr. Cook's story. On reaching Etah, I talked with the Eskimos there and with the two boys and asked them to describe Dr. Cook's journey to members of my party and myself. This they did in the manner stated below.
(Signed) R. E. PEARY.
(Signed statement of Peary, Bartlett, McMillan, Borup and Hensen, in regard to the testimony of Cook's two Eskimo boys.)
The two Eskimo boys, I-took-a-shoo and Ah-pe-lah, who accompanied Dr. Cook while he was away from Anoratok in 1908 and 1909, were questioned separately and independently, and were corroborated by Panikpah, the father of one of them (I-took-a-shoo) who was personally familiar with the first third and the last third of the journey, and who said that the route for the remaining third, as shown by them, was as described to him by his son after his return with Dr. Cook.
Notes of their statements were taken by several of us, and no one of us has any doubt that they told the truth. Their testimony was unshaken by cross-examination, was corroborated by other men of the tribe, and was elicited neither by threats or promises, the two boys and their father talking of their journey and of their experiences in the same way that they would talk of any hunting trip.
To go more into details: One of the boys was called in, and, with a chart on the table before him, was asked to show where he had gone with Dr. Cook. This he did, pointing out with his finger on the map, but not making any marks upon it.
As he went out, the other boy came in and was asked to show where he had gone with Dr. Cook. This he did, also without making any marks, and indicated the same details and the same route as did the other boy.
When he was through, Panikpah, the father of I-took-a-shoo, a very intelligent man, who was in the party of Eskimos that came back with Dr. Cook from the northern end of Nan-

WHAT WILL TAFT DO? IS NOW THE QUESTION

By Associated Press.
Washington, D. C., Oct. 13.—"What will Taft do with the resignation of Cans. R. Crane, as minister of the United States to China?"
In one form or another this question is on the lips of all officials in Washington this morning. Crane's stinging reply to the statement of Secretary Knox yesterday afternoon was read and re-read with keenest zest. Little doubt is expressed however, that the resignation will be accepted by the president and it was understood that Knox was perfectly assured of the approval of Taft for his course pursued with Crane.

The motion of the attorneys of M. E. Shinn for a new trial was overruled, and Shinn will be sentenced tomorrow morning in accordance with the verdict of the jury, which found him guilty of manslaughter.
